ABOUT US

Vision

We are excited to host a student-led hackathon that encourages high schoolers to brainstorm, code, and present creative projects inspired by the adventures of our camel friend, Cababas. Participants will have 24 hours to design and develop a project based on his journeys. The event will start with opening ceremonies where participants meet the organizers, learn about the challenge, and hear from special guests. They will have workshops available to them to learn key skills. In addition, there will be fun surprises like karaoke, snacks, and games while participants work on their projects. Finally, thank our gracious sponsors, award amazing prizes, and conclude Cababas' journey together.

Mission

We are dedicated to create a beginner friendly, inclusive environment that gives students all the tools they need to create a successful project. We have official 501(c) (3) nonprofit under our incubator, The Hack Foundation (d.b.a. Hack Club), we operate with a dedication to promoting student innovation. For more information our EIN: is 81-2908499.
